Reliant®

Biological Safety Cabinet 70% recirculating
4-foot Class II A2 New - demo unit

List Price: \$6,257 Sale \$4,558

- ULPA filters 99.999% efficient on 0.1 to 0.3 micron particulates providing better protection than HEPA filters
- Lowest overall height of any BSC available allowing it to fit into any lab
- One piece coved corner stainless steel interior for easy cleaning
- Sloped front and armrest for better ergonomics
- German made rotor/motor provides a more efficient, reliable, quieter system that has more reserve capacity than conventional motor fan systems extending filter life and reducing operating costs
- Reliable and proven switches and a minihelic gauge eliminating the problems and cost associated with microprocessors
